

分线端子台

Terminal block

产品订货型号:分线端子台 Product ordering model: terminal block

MG	10	PA
品牌 Brand	针数 Number of stitches	转换类型 Conversion Type
玛格 MG	10:10 pins 20:20 pins 40:40 pins	PA:针转接线端子 102P:20针转两组10针 202P:40针转两组20针 PA: pin switching terminal block 102P: 20 pins switching to two groups of 10 pins 202P: 40 pins switching to two groups of 20 pins

用途 Purpose

根据需要选择针位, 可方便地实现电控柜中的控制中心: 如工控机PLC等控制系统I/O接口的多针扁平电缆接头(符合IEC603-1/DIN41652标准)与通往工业现场双层端子的导线, 采用编号对应连接安装在标准导轨上, 具有通用性, 使用安全可靠方便快捷。

The pin position can be selected according to the needs, so as to easily connect the multi-pin flat cable plug (conforming to IEC603-1/DIN41652 standard) of I/O interface of the control center in the electric control cabinet such as industrial computer, PLC and other control systems with the conductor to the double-layer terminal of the industrial site and install them on a standard rail according to the corresponding number. With good versatility, its use is safe, reliable, convenient and fast.

外型尺寸 Outline dimensions

型号Model	尺寸:长*宽*高 (mm)
10P,20P	72×78×50
40P	130×78×50
